

DESCRIPTION

Wireless speaker made of recycled aluminium and with an elegant matte finish. With Bluetooth 3.0 connectivity, you can enjoy surround and wireless sound, taking your music experience to another level. In addition to its function as a speaker, this device has a built-in FM radio, allowing you to tune in to your favourite stations at any time. It also has a hands-free function, which allows you to answer calls without having to disconnect your device. Powered by 3W, this speaker delivers clear, powerful sound. In addition, its rechargeable battery provides hours of continuous playback. We include a Type C cable in the package for quick and easy charging. We are proud to present this speaker in an eco-designed box, in line with our commitment to caring for the environment. Enjoy music sustainably with our wireless speaker made from recycled aluminium, your perfect accessory for all your musical adventures.
